**DE** Wer es zeitgemäss und schick mag, wird unsere CHEVRON-Dekore lieben. Das Design in der französischen Variante des Fischgräte-Parketts passt hervorragend zu moderner Architektur. Von einem echten Holzboden kaum zu unterscheiden, wirken sie durch die EIR-Struktur mit gepressten Fugen wie von Hand bearbeitet und sind daher echte Unikate in der Reihe unserer GRAND SELECTION.

**EN** Those who like contemporary and chic will love our CHEVRON decors. The design in the French version of herringbone parquet is an excellent match for modern architecture. Hardly distinguishable from a real wooden floor, the EIR structure with pressed joints makes them look as if they have been finished by hand, making them truly unique in our GRAND SELECTION range.

**FR** Ceux qui aiment le contemporain et le chic vont adorer nos décors CHEVRON. Le design dans la variante française du parquet à chevrons s'adapte parfaitement avec l'architecture moderne. Difficilement différenciables d'un véritable parquet en bois, ils donnent l'impression d'avoir été travaillés à la main grâce à leur structure EIR avec des joints pressés, ce qui en fait de véritables pièces uniques dans la gamme de notre GRAND SELECTION.

**IT** Chi ama lo stile contemporaneo e chic si innamorerà dei nostri decori CHEVRON. Il design nella versione francese del parquet a spina di pesce si abbina perfettamente all'architettura moderna. Grazie alla struttura EIR con giunti pressati, questi decori, difficilmente distinguibili da un vero pavimento in legno, sembrano rifiniti a mano, il che li rende davvero unici nella nostra gamma GRAND SELECTION.

**ES** A los que les gusta lo contemporáneo y lo chic les encantarán nuestras decoraciones CHEVRON. El diseño de la versión francesa del parquet en espiga se adapta perfectamente a la arquitectura moderna. Difícilmente distinguibles de un auténtico suelo de madera, la estructura EIR con juntas prensadas hace que parezcan acabados a mano, haciéndolos realmente únicos en nuestra gama GRAND SELECTION.

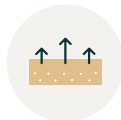

**PT** Aqueles que gostam de um estilo contemporâneo e elegante vão adorar os nossos padrões CHEVRON. O design da versão francesa do parquet tipo espiga enquadra-se perfeitamente na arquitetura moderna. Difícilmente distinguíveis de um verdadeiro pavimento de madeira, a estrutura EIR com juntas prensadas faz com que pareçam ter sido processadas à mão, tornando-as verdadeiramente únicas na nossa gama GRAND SELECTION.
